Number 1 on the bestseller list in Norway!

This is the book that helps you keep track of your knitting projects! Runa Sommerfelt, the designer behind the bestseller *Runa Knits*, has created a book that you can turn into your own treasure chest. Here you will find everything you need: technical tips, "design yourself" assistance, fun patterns, and note pages where you can jot down your own ideas and projects. In *Knitting Joy* you'll find a rich and versatile list of yarn alternatives, as well as help to keep track of your yarn stash, needles, and leftover yarn. Runa also shares patterns – great leftover yarn projects and new twists on the popular Beginner Sweater. And best of all: Learn from Runa how to design on your own or modify patterns to make them exactly the way you want.

Her first book, *Runa Knits*, was a huge best seller and has sold to Germany and Denmark.
